

A Statement of Commitment to Freedom of Thought

OUR SCHOOL believes that a fundamental aspect of our mission is to develop critical thinkers who can navigate a complex world through civil discourse, respectful inquiry, engaged listening, and open consideration of multiple perspectives. Key to fulfilling this charge is the cultivation of a school environment in which all students feel welcome and free to explore a wide range of ideas. Our firm commitment to this principle reflects not only OUR SCHOOL's obligation to prepare our students for their future but our belief that the open exchange of ideas lies at the core of a democratic society in which individuals are accountable for their actions and treat one another with dignity, compassion, and respect.
